

COURSE CURRICULUM

**EMPOWERING THE NEXT GENERATION WITH MODERN WEB
DESIGNING & UI/UX DESIGN**

DURATION: 60 HOURS (WEB DESIGNING – 40 HRS | UI/UX – 20 HRS)

**TARGET AUDIENCE: UNDERGRADUATE STUDENTS (B.COM, BBA, BA, BCA & NON-
TECHNICAL DISCIPLINES)**

PREPARED BY: ADITYA KUMAR

COURSE

OVERVIEW

THE INTERNET HAS BECOME THE FOUNDATION OF BUSINESSES, EDUCATION, ENTREPRENEURSHIP, AND PERSONAL BRANDING. EVERY ORGANIZATION TODAY REQUIRES WEBSITES AND DIGITAL EXPERIENCES THAT ARE VISUALLY APPEALING, USER-FRIENDLY, AND ACCESSIBLE.

THIS COURSE IS DESIGNED TO EQUIP COLLEGE STUDENTS WITH PRACTICAL **WEB DESIGNING** AND **UI/UX DESIGN** SKILLS REQUIRED TO CREATE MODERN, RESPONSIVE, AND PROFESSIONAL WEBSITES. RATHER THAN FOCUSING ON COMPLEX PROGRAMMING CONCEPTS, THE CURRICULUM EMPHASIZES HANDS-ON LEARNING USING INDUSTRY-STANDARD TOOLS AND BEST PRACTICES.

STUDENTS WILL LEARN HOW WEBSITES ARE DESIGNED, HOW USERS INTERACT WITH DIGITAL PRODUCTS, AND HOW ATTRACTIVE INTERFACES ARE CREATED. THEY WILL BUILD RESPONSIVE WEBSITES USING **HTML, CSS, JAVASCRIPT, BOOTSTRAP, AND MODERN DEVELOPMENT TOOLS** WHILE ALSO LEARNING PROFESSIONAL UI/UX DESIGN USING **FIGMA**.

THROUGHOUT THIS **60-HOUR PROGRAM**, STUDENTS WILL DESIGN COMPLETE USER INTERFACES, DEVELOP RESPONSIVE WEBSITES, CREATE PERSONAL PORTFOLIOS, UNDERSTAND DESIGN THINKING, IMPROVE USER EXPERIENCES, AND COMPLETE INDUSTRY-ORIENTED CAPSTONE PROJECTS.

BY THE END OF THE PROGRAM, STUDENTS WILL POSSESS PRACTICAL KNOWLEDGE TO BUILD PROFESSIONAL WEBSITES, DESIGN DIGITAL PRODUCTS, COLLABORATE EFFECTIVELY WITH DEVELOPERS, AND CREATE MODERN, USER-CENTRIC DIGITAL EXPERIENCES USING INDUSTRY-STANDARD TOOLS AND BEST PRACTICES.

COURSE

VISION

TO EMPOWER EVERY STUDENT WITH PRACTICAL WEB DESIGNING AND UI/UX DESIGN SKILLS THAT ENABLE THEM TO CREATE PROFESSIONAL DIGITAL EXPERIENCES, ENHANCE CREATIVITY, SOLVE REAL-WORLD PROBLEMS, AND BUILD CAREER OPPORTUNITIES IN THE DIGITAL ECONOMY.

COURSE OBJECTIVES

- Understand how websites work
- UNDERSTANDING HOW WEBSITES WORK
- BUILD RESPONSIVE WEBSITES USING HTML, CSS AND JAVASCRIPT
- CREATE MODERN LAYOUTS USING BOOTSTRAP
- LEARN PROFESSIONAL UI DESIGN USING FIGMA
- APPLY UX PRINCIPLES TO IMPROVE USER EXPERIENCE
- UNDERSTAND COLOR THEORY AND TYPOGRAPHY
- DESIGN RESPONSIVE USER INTERFACES
- CONVERT FIGMA DESIGN INTO WEBSITES
- OPTIMIZE WEBSITES FOR PERFORMANCE AND ACCESSIBILITY
- PUBLISH WEBSITES ONLINE
- BUILD PROFESSIONAL PORTFOLIOS

CAPSTONE

PROJECTS & TOOLS

STUDENTS WILL BUILD

1. Personal Portfolio Website
2. Restaurant Website
3. Landing Page
4. College Event Website
5. Travel Website
6. Mobile App UI
7. Dashboard UI
8. Complete UI to Website Conversion Project

TOOLS COVERED

Development

- HTML5
- CSS3
- JavaScript
- Bootstrap 5
- VS Code
- Git & GitHub
- Chrome DevTools
- Netlify
- GitHub Pages

UI / UX

- Figma
- FigJam
- Google Fonts
- Material Icons
- Font Awesome
- Colors
- Unsplash
- Icons8

DETAILED CURRICULUM

PART A — WEB DESIGNING (40 HOURS)

Module	Sub-topic	Description	No. of Hours
1. Introduction to Web Development	Web Fundamentals	Internet & web basics, frontend vs backend, how websites work, website lifecycle, and domain & hosting. Students understand the fundamentals of websites.	2 Hours
2. HTML5 Fundamentals	Structure of the Web	HTML structure, semantic HTML, forms, tables, media, lists, navigation, and accessibility basics. Mini projects: Resume Page, Registration Form, Restaurant Layout. Students build complete webpage structures.	8 Hours
3. CSS3	Styling & Layouts	Selectors, box model, Flexbox, Grid, positioning, animations, transitions, transform, responsive design, and media queries. Mini projects: Landing Page, Pricing Section, Gallery, Portfolio. Students create modern responsive layouts.	10 Hours
4. JavaScript Basics	Interactivity	Variables, functions, events, DOM manipulation, forms and validation. Hands-on builds: Image Slider, Dark Mode toggle, Calculator, FAQ Accordion. Students make websites interactive.	10 Hours
5. Bootstrap & Modern Development	Rapid Building & Deployment	Bootstrap grid, components, navbar, cards, carousel, modal, responsive utilities, and icons. Deployment using Git, GitHub, and Netlify. Students build and publish responsive websites.	6 Hours
6. Final Website Project	Bring It All Together	Students build one complete website using all technologies learned — HTML, CSS, JavaScript, Bootstrap — and deploy it live online.	4 Hours

PART B — UI/UX DESIGN (20 HOURS)

Module	Sub-topic	Description	No. of Hours
7. Introduction to UI/UX	Design Thinking	UI vs UX, design thinking, user journey, good vs bad design, and how the industry design process works.	2 Hours
8. Figma Fundamentals	Design Like a Pro	Frames, auto layout, components, variants, constraints, styles, assets, and plugins. Mini project: design a complete landing page in Figma.	5 Hours
9. Visual Design Principles	Design Foundations	Typography, color theory, spacing, alignment, visual hierarchy, accessibility, icons, illustrations, and design systems.	4 Hours
10. UX Design Process	From Research to Testing	User personas, wireframing, low-fidelity and high-fidelity designs, prototyping, user flows, usability testing, and iterating on feedback.	4 Hours
11. UI Design Project	Capstone Design Sprint	Students design a mobile app UI & dashboard, convert the design into a responsive website, and present a complete case study.	5 Hours
